

Assignment 2: AI Content Generation

Objective

Use generative AI tools to create different types of digital content from one common idea.

Task

Choose **one topic, product, event, campaign, or organization**.

Using AI tools, create the following content:

1. **Written Content**
 1. Create a social media post or short promotional article.
2. **Image**
 1. Generate one relevant AI image or poster.
3. **Presentation**
 1. Create a presentation of approximately **5 slides**.
4. **Video**
 1. Create a short AI-generated video or video concept of approximately **20–60 seconds**.

Example

Topic: **AI Awareness Campaign for University Students**

Possible outputs:

- Instagram/Facebook post
- AI-generated campaign poster
- 5-slide awareness presentation
- 30-second promotional video

Requirements

Students must provide the prompts they used for every generated item.

For example:

Text Prompt:

Prompt used for creating the social media post.

Image Prompt:

Prompt used for generating the poster.

Presentation Prompt:

Prompt used to create the slides.

Video Prompt:

Prompt used to create the video.

Submission

Submit:

- Final text
 - Generated image/poster
 - Presentation
 - Video or video link
 - All prompts used
 - A short explanation of which AI tools were used
-
